

Embracing Infinite Possibilities

5G Cooperation Forum 2021

INVITATION

Date/Time: Wednesday, November 10, 2021, 10:00 a.m. (UTC+8, Beijing time)

Overview

With the rapid development of global mobile communication and the approaching commercialization of 5G, the world will enter a data era with larger scale, more connections and more possibilities.

In this wave of digitization, the mobile communication industry is facing new development opportunities, and all parties in the industry are also facing new growth opportunities. At the same time, FiberHome also advocates deepening cooperation among all parties to meet upcoming challenges and hot research.

This cooperation forum is jointly held by FiberHome and Omdia to introduce the 5G current situation and development trend, and invite analysts, operator experts and equipment supplier specialists to discuss the 5G sustainable cooperative development.
